The IV International Postgraduate Seminar in English Literature and Linguistics (IPSELL) organised by the Master's in English Literature and Linguistics of the University of Granada aims to provide a forum where postgraduate students/researchers can present the results of their current research projects (preferably MA dissertation or early PhD work). This event intends to allow master's and early career research students to share their research interests with national and international young scholars and get acquainted with the critical visions and methodological approaches that will be leading academic research in the years to come. IPSELL welcomes submissions reporting original research results related —though not restricted to— any of the following academic interests:
